**Are you interested in improving
health care in the Central region?**

**Ontario Health Central is looking for
individuals who:**

- Represent the diversity of patients, caregivers and community members in the Central region;
- Have regularly used the health care system in the last two years and have some engagement experience;
- Are interested in improving the health of the communities and populations in the Central region;
- Want to collaborate with other patient and family advisors within the health system and participate in ongoing training and educational opportunities.
